Motion of the Slovak Angling Association (Slovenský rybársky zväz) - General Assembly of FIPS-Mouche 2019 in Almaty, Kazakhstan.

Dear friends,

Sportive Fly Fishing Committee on behalf of Slovak Angling Association submits to FIPS-Mouche Board the following change of the Competition Rules 2019:

Article 2: General information

Change: to remove paragraph 2.6.

From 2020 onwards:

- Senior and Masters World championships take place in even years;
- Regional championships take place in odd years
- and Youth World championships take place each year.

Explanation:

FIPS-Mouche should for the future of our sport rather enlarge its position in the amount of the annually organized international events in various age and regional categories to be more visible, present and to attract our sport to public and media even more intensively. We are of course aware of the funding difficulties the federations annually face to (it is an issue for us as well) but the federations have all the time the right to set their priorities re the participation of the national teams in the particular competition year. Therefore SRZ proposes to remove paragraph 2.6. that was reducing amount of competitions from 2020 onwards.

With best regards,

Luboš Javor

General Secretary
